In contrast to the above-cited elements of the subject invention, Kazuaki teaches an opposing approach; namely, that the openings (and not the bridges) are aligned with the horizontal magnetic field to prevent "the generation of a magnetic flux which would hinder the change in the magnetic flux in the horizontal deflection magnetic field" per the Abstract of Kazuaki. Thus not only does Kazuaki fail to disclose elements of the subject invention, but Kazuaki is in opposition to those elements. Accordingly, withdrawals of the 35 U.S.C. §102 rejections of claims 1-5, 8-15, and 19; and the 35 U.S.C. §103 rejections of claims 7 and 20 are respectfully requested.

CONCLUSION

In view of the foregoing, the applicants believe that the subject application is in condition for allowance. An early, favorable action is respectfully solicited.

If the Examiner deems that a telephone call would further the prosecution of this application, the Examiner is invited to call Mr. Eric Bram at (914) 333-9635. All correspondence should continue to be sent to the address of record (not to the signing attorney).
